

ADHESIVE INSTRUCTIONS

STERICLAD™

FOR PROFESSIONAL USE ONLY

Add Part B to Part A and mix thoroughly using a drill-mounted 60mm paddle until fully homogeneous. Scrape the bucket sides at least twice during mixing. Apply with a notched trowel to one surface and assemble immediately.

Batch No.: 238922

D.O.M.: FEB 2023

Contains: Diphenylmethane-diisocyanate, isomers, homologues

Part B (foil pack inside bucket) | UFI: KE00-E03P-5001-QG25

Hazards: Skin/eye irritation. May trigger asthma/allergy if inhaled. Suspected carcinogen. Organ damage risk with prolonged exposure. Contains isocyanates. Avoid inhalation. Wear gloves, goggles, protective clothing. First Aid: Rinse skin/eyes thoroughly. If inhaled, move to fresh air. Seek medical help if exposed.

Part A (Non-Hazardous) | UFI: MCOO-WOE8-U00J-14G3

Avoid skin contact; wash immediately if exposed.

ULTIMATE ADHESIVE & SEALANT

Solvent-Free Hybrid Technology – Premium silyl-modified polymer for high-strength bonding/sealing. Fast-curing, UV/weather-resistant. Bonds stone, metal, glass, wood, plastics (excl. PP/PE/PTFE). Paintable, low-VOC, no shrinkage.

DIRECTIONS:

Clean, dry surfaces required. Apply as beads (adhesive) or continuous sealant. Use masking tape for neat finishes. Wash hands post-use.

STORAGE:

12 months unopened at +2°C to +25°C.

LIMITATIONS:

Not for aquariums, continuous water immersion, or abrasive areas. Avoid PVC/bitumen. Test suitability beforehand.

SAFETY:

Use ventilated areas. Wear PPE. Keep from children. SDS available on request.
