Designed around your aesthetic

Designed to transform spaces, these lockers suit a range of environments from changing rooms, spas, health clubs and wellness retreats. Our luxury locker collection combines refined aesthetics with exceptional durability. Featuring sleek flush-fronted designs, premium laminate finishes and a choice of steel or aluminium construction, the range delivers secure storage solutions that complement the most sophisticated interiors.

Steel (Dry Areas)

Manufactured with a robust steel body and premium 12mm SGL doors, the steel option is ideal for dry changing rooms, workplace environments, fitness suites and leisure facilities. Combining outstanding durability with a refined appearance, it offers a cost-effective solution without compromising on style.

Aluminium (Wet Areas)

Manufactured with a corrosion-resistant aluminium carcass and premium 12mm SGL doors, this option is purpose-designed for wet and humid environments. Ideal for spas, swimming pools, health clubs and luxury leisure facilities, it provides exceptional longevity where moisture resistance is essential. Flush-fronted doors and concealed aluminium framing create a clean, contemporary appearance suited to premium interiors.

Key features

- Premium flush-fronted design for a seamless, luxury appearance
- Durable solid grade laminate doors with excellent impact and scratch resistance
- Suitable for high-traffic commercial changing facilities
- Wide choice of contemporary colours and finishes to match other Rearo Products
- Heavy-duty, concealed, self-closing hinges for long-term reliability
- Extensive range of lock options available
- Hygienic, easy-clean surfaces
- Fully assembled for efficient installation

Accessories

Complete your locker configuration with a double coat hook or a hanging rail.
